# About our program

## THRIVE

TEEN HEALTH.RELATIONSHIPS.INDEPENDENCE.VISION.EMPOWERMENT.

**Our 8 session psychoeducational program, THRIVE, helps teens learn the skills needed to understand and cope with the challenges they face. ACS clients are under the care of licensed mental health clinicians.**

Topics include: enhancing communication skills, coping with emotions, setting healthy boundaries, dealing with peer pressure, social media safety, and substance use education.

This program is recommended for:

- Teens seeking counseling for the first time
- Teens who may be on a waitlist for outpatient services
- Teens without a significant mental health history (e.g. psychiatric hospitalizations, recent medication changes, suicide attempts, self-injurious behavior)

We accept referrals from Court personnel, the Juvenile Diversion Program, school personnel, parents/ guardians, community-based organizations, and state agencies.
